## Welcome to Angola

This Sectoral Investment Opportunities Guide in Angola is aimed at attracting and promoting Foreign Investors and Direct Investment in Angola, by the USA-AFRICA TRADE COMMISSION, through its Angola Country National Director. The strategic interest in collaborating for the development of critical sectors, such as Agriculture, Manufacturing, Engineering, Civil Construction and above all in the Attraction of Tourism, has been a great Achilles heel of the Angolan Government.

However; the USA-AFRICA TRADE COMMISSION, understands that its role in this phase in which Angola is facing the world, is to facilitate trade and in attracting and promoting trade and investment, for the benefit of both countries in particular and for Africa in general, helping to mediate trade relations with local authorities, communities and strategic actors, making available to the vast experience they have and their vast network of American businessmen affiliated to the USA-AFRICA TRADE COMMISSION. Thus, we present a guide with the priority sectors whose interest is expressed by the Angolan Government to attract investors to this specific sector with a commitment that reflects a relationship of mutual trust between investors in order to ensure the success of the investment projects to be presented for partnerships between entrepreneurs from the two countries under the umbrella of the USA-AFRICA TRADE COMMISSION, promoting benefit, both for the companies involved, and for the socioeconomic progress of Angola. The sectors of food production, agriculture, livestock and fisheries, extraction of metals and minerals, wood and derivatives, tourism, textiles and

footwear will always be welcome investments and priorities in their attraction and promotion.

**APIEX** is the indirect administration body of the State, whose objective is to promote investments and exports, in order to foster and improve the country's potential and opportunities, as well as the competitiveness of national companies in their internationalization processes.
